Partnerfonds AG to present at German Equity Forum 2018

Planegg, 11 September 2018 – PartnerFonds AG will participate in this year's German Equity Forum hosted by Deutsche Börse AG. Oliver Kolbe, CEO of PartnerFonds AG, will present the industrial holding company to analysts and institutional investors attending the three-day conference.

"The German Equity Forum is a perfect platform for presenting our business concept to acclaimed financiers and institutional investors in the private equity sector. We are determined to become one of the leading German industrial holding companies in the public sector and intend to increase our visibility in the capital market," says Oliver Kolbe, CEO of PartnerFonds AG.

The event staged at the Sheraton Frankfurt Airport Hotel & Conference Center from 26 until 28 November 2018, boasting 200 presenting companies and up to 3,500 individual interviews, is one of Europe's leading platforms for public and private companies.

About PartnerFonds AG

As an industrial holding company, PartnerFonds AG invests in medium-sized enterprises with an industrial background and a solid growth potential in the German-speaking region, seeking to secure their long-term stability and advancement.

In line with this "buy, hold & develop" strategy, our subsidiaries are independent business entities operating under the umbrella of PartnerFonds AG to form a strong group of companies with an industrial bias.

Our business activity is focused on the DACH region. Our target companies typically generate sales revenues in the range of EUR 10 to 50 million and have a distinct and robust core business. All subsidiaries operate independently from the beginning and pursue separate strategies. A key concern of PartnerFonds AG is to continuously explore synergies at group level.
